Work Experience

Mathematics Teacher: Taught mathematics to high school students for five years, focusing on improving academic success and critical thinking skills.

Education

Bachelor of Science in Civil Engineering: Middle East Technical University

Bachelor of Science in Computer Engineering: Ankara Yildirim Beyazit University

About Me

I am a passionate and dedicated computer engineering student currently in my 4th year at Yildirim Beyazit University. With a solid background in mathematics teaching, I have honed my ability to think critically and solve complex problems. My experience spans across software development, where I have worked on web and mobile applications, focusing on artificial intelligence integration. I am particularly interested in game development, AI, and educational software. I am eager to continue developing my skills and contribute to innovative projects in the tech industry.
